efforts to place a copy of the Daily, Weddy, or Sons Weddy Union in the hands of every farmer, mechanic, and working-man in the country.

The subscription price of the Daily Union is ten dollars per annum. The Tri-Weddy (published semi-weekly during the recess of Congress) is five dollars per annum, and contains all the receding matter which appears in the baily. The Weddy (inion is furnished to subscribers at the low rate of site dollar per muses, and is justly regarded as the cheapest political paper in the world. It is a large and handsomely-printed sheet, and contains as saich reading matter in the course of a welvemonth as would make foreign ordinary action columns. It welves the found to possess the advantages of both a political and a family non-paper. The mest important political articles of the daily issue are transferred to the weekly, and during the sitting of Congress a careful abstract of the daily proceedings of the two houses is propared as clusively for its columns. It contains, besides all important State papers of the year, election returns from every State in the Union, species of distinguished democrats in and out of Congress, interesting correspondence, a full summary of foreign and democribe news, and from week to week such information in regard to the agricultural, manufacturing, and commercial interests of the country as will be found, it is believed, of particular value.

That the Weddy Union is appreciated in the most substantial manner by democrats in every scotion of the Union, no better evidence the abstract in every scotion of the Union, no better evidence meed be desired than is furnished by its rapidly increasing circulation. Within elgitteen months towny thousand new names have been added to the subscription list, and, with the slightest exertion on the part of our friends, its circulation can be increased to one hundrest thousand copies before the close of the year. Will our friends exert themselves? Of the value of the Weddy Union to correct misrepresentations, expose and meas

from motives which I think will be understood and appropriate femocrais everywhere. In conclusion, I desire to say a few words to subscribers, and to such as may hereafter become subscribers. There is now owing the Union establishment upwards of seventy thousand dollars for back subscriptions. These enormous arrearages are the result of the credit system. With the new volume upon which the Union has entered that system is abandoned, and hereafter the business of the establishment will be conducted on strictly each principles. No subscriptions for the Daily, Semi-weekly, or Weekly issue will be received unless accompanied with the advance payments.
